Summary

I am a Full Stack Web Developer based in the Northern Virginia area. I recently earned a certificate in Full Stack Web Development from the University of George Washington, where I developed skills in JavaScript, CSS, React.js, Apollo/GraphQL, responsive web design, and more

An innovative problem-solver passionate about developing apps, my current focus is on mobile-first and polished front-ends for a clean design. Since completing the bootcamp, I have continued my studies independently to learn more about Next.js, Vercel Production, and whatever is thrown my way!

I bring the following to every project:

- Problem-solving skills and perseverance
- Creativity and design fundamentals
- Dedication to teamwork and flexible collaboration
- A foundational knowledge of agile software development principles
- A Good understanding of UX/UI principles

I'm excited to leverage my skills as part of a fast-paced, quality-driven team. Let's connect!
